Government of India
Ministry of Railways
(Railway Board)

No. 2008/M(PU)/1/42 Pt.

New Delhi, dated: 17.12.2018

The Adviser (Infrastructure),
Ministry of External Affairs,
Development Partnership Administration-1,
New Delhi

(Kind Attention Sh. Pankaj Kumar Singh, Adviser (Infrastructure))

Sub: Appraisal of proposal submitted by Government of Mozambique for procurement of Rolling Stock against GOILOC.

Ref: Your OM No. DPA-1/230/141/2018, Dt. 14/12/2018

The request received from the Government of Mozambique vide reference above has been examined. It is seen that a request has been made for procurement of 5 no.s 3000 HP Diesel Electric Locomotives, 300 wagons and 90 coaches along with maintenance support for 5 years against GOI's Line of Credit. Rolling Stock gauge required is Cape gauge which can be supplied from India through M/s RITES, a PSU of Ministry of Railways. M/s RITES have already discussed the matter with Diesel Locomotives Works, Varanasi for locomotives, MCF Raibareli for coaches and the wagon industry including SRBWIPL, Kulti which is JV of M/s RITES and M/s SAIL. The technical specification given in the proposal can be easily manufactured to world class standards by Railway PUs and wagon manufacturers in India.

M/s RITES have been advised to carry out necessary ground work in consultation with Rolling Stock manufacturing units and establish sourcing of uncommon components. The proposal is technically found to be in order.
